LOCATION / COUNTRY

Inspection in drydock in Barcelona (February 2004)

COATING SYSTEM

SigmaGlide system applied on Sigma Multiguard after full
gritblast in May 2001 in Barcelona, Spain.

COMMENTS

Milenium operates a ferry service between Barcelona and
Palma de Mallorca at an operating speed of 38-40 knots.
After 3 years in service, only a light slime was visible on
the immersed area. Vessel was low-pressure, fresh water
washed before returning to service.
